OUR DREAMS

We dream of a society in which music teaching, training, updating and research are at the centre of our social life. We believe in an education system that ensures integrated hands-on music learning for everyone starting from an early age. We imagine a country where music is the channel for universal communication that draws together different people, ages, abilities, cultures, and religions.

As a Music School we want to put all of this into practice.

HISTORY

1976 first music courses. 1991 training and updating courses. 1995 collaboration in state schools and nursery schools. In 2002 recognition from the Ministry of Education as accredited centre for teacher training. 2003 "Notes of Peace" non-profit music event in the Middle East. In 2008 guests of the ECME/MISTEC international commission. In 2008 winners of the Gibson Isme International Award. In 2010 opening of the music therapy department.
